

Smart AP Suite

BirchStreet Smart AP™ is a next-generation solution that automates the entire accounts payable process, from invoice capture to payment execution. Powered by advanced AI that manages both header and line-level exceptions, BirchStreet Smart AP™ allows for faster, more accurate invoice processing with stronger control, higher efficiency, and real-time visibility. As a result, customers will incur significantly reduced manual workloads, faster payment cycles, virtually eliminated processing errors, and robust fraud prevention.

Shift from transactional work to strategic value creation

97%+ touchless invoicing ingestion accuracy.

Handle higher volumes without adding headcount. Empower your existing team to work faster and smarter, freeing up time to focus on revenue-driving initiatives and strategic priorities.

50% reduction in invoice processing time.

Simplify collaboration and boost productivity with real-time visibility and control. Resolve invoices faster, reduce exceptions, and eliminate manual effort— so your team can focus on what matters most.

35% less time cutting manual checks.

Reduce costs, curb fraud, and eliminate leakage. Unlock new revenue opportunities through strategic discounts and rebates – all while streamlining your AP operations.
